Sustainable Neighbourhoods is a program of Lake Macquarie City Council that supports our community. For more information contact Lake Macquarie City Council on **02 4921 0333**.

The Dudley Sustainable Neighbourhood project is supported with assistance from the New South Wales Government through its Environmental Trust.

# Get Informed, Get Involved

## Dudley Sustainable Neighbourhood

We know Dudley is a spectacular place to live. Help us make it better.

Join some great community projects – we want to hear from you.

# Community Projects

## Village Hub

**Creating a vibrant village hub where neighbours can socialise, play, learn, share, and celebrate**

### Dudley Streetscape Group

Create a cohesive community vision to inform future streetscape improvements in Dudley, and integrate a range of community aspirations.

### Dudley Community Garden Group

Create a shared community garden in Dudley where people can meet together, produce food and educate our community.

### Dudley Mural Group

Create a mural on the corner of Ocean and Boundary Streets to reflect the essence of Dudley, and bring the community together.

### Skate Park and Activity Hub - Idea

Create a multipurpose outdoor activity centre in Dudley to provide a place for young people and families to enjoy.

Memorial Park

## Active Transport

**Encourage Dudley residents to use active transport such as cycling, walking, carpooling, and catching the bus**

### Dudley Spur Line Shared Pathway Group

Create a shared pathway along the Old Rail Spur Line to create a safe link in and out of Dudley for walking, cycling and disability access.

### Increase walking, cycling and public transport usage

Increase the share of non-car related trips into and out of Dudley through advocacy for improved public transport, walking and cycling infrastructure, and through community education.

### Banksia Ave Walking Track - Idea

Create a walking track at the end of Banksia Ave to improve safety, amenity, and community access to Glenrock, while protecting biodiversity and controlling erosion.

## Sustainable Living

**Reduce Dudley's energy use, water use and waste.**

### Ban the Bag Campaign

Encourage Dudley residents to reduce their consumption of single use, disposable plastic through education and advocacy.

### Waste Reduction - Idea

Encourage and support Dudley households to reduce their waste through education, and by promoting alternatives such as composting, recycling, and reduced consumption.

### Dudley Energy - Idea

Support Dudley households to reduce their non-renewable energy usage through education, promotion of alternatives, and support for uptake of renewables.

### Reduce potable water use - Idea

Encourage Dudley residents to increase capture and reuse of rainwater and grey water

## Natural Environment

**Protect and enhance our spectacular natural environments, including bushland, beaches, waterways, and marine environments and natural processes, in local reserves, and in our own backyards.**

### Dudley Landcare Groups

Encourage participation in Landcare activities throughout Dudley to improve biodiversity and habitat values, protect and enhance water quality, local hydrology, soil health and ecosystem functioning.

### Rock Platform Protection Campaign

Protect flora and fauna on Dudley's rock platforms through education and enforcement.

### Ecosystem Protection Campaign

Protect flora and fauna biodiversity in Dudley's bush reserves and public land through education, enforcement, and positive action

### Bushfire Management / Preparing for Bushfire - Idea

Work with relevant authorities and landholders to improve bushfire management practices, and improve community preparedness.
